Missed Meetings. Missed Promotion.

Professional 58 y.o. female seeks discrete relationship with an effective OAB therapy. With my MBA, I should be running a department not running to the bathroom. These night-time gigs are doing a number on my face and attitude. I already use injections to keep my face perky. Need something to make me less of a monster. Not interested in playing a cyborg.

67 y.o. male benched by OAB just wants to get back to the ballpark without

Help Me Change My Ways

68 y.o. compulsive adult diaper buyer seeks OAB therapy to make me a better person. I've tried several times. I tried to change my ways. I tried medications but nothing stuck. I can't keep going on like this for one thing, these diapers are expensive. Is there something minimally invasive that could work?
